SUMMARY

Passionate Electronics & Telecommunication Engineering student at Madhav Institute of Technology and Science with hands-on experience in frontend development, Python, AI/ML, and cybersecurity tools. Skilled in building responsive web applications using React.js and Tailwind CSS, with strong knowledge of modern AI tools, automation workflows, and emerging technologies. Quick learner with problem-solving abilities and a strong interest in software development, seeking an internship opportunity to gain industry experience and contribute to real-world projects.
